Early bird EFPC members	225€
Early bird non-members	400€
Registration EFPC members	325€
Registration non-members	500€

Early bird deadline: 16 June 2020

## EMPOWERING PRIMARY CARE THROUGH DIVERSITY

### Abstract types:

#### Research abstracts:

These presentations will provide the results, completed or in advanced in-progress form, of original research projects. The material should not have been published elsewhere, except in preliminary form, and it should be ready for publication as a journal article. Papers related to PhD projects, either completed or in progress, are especially encouraged. The selected abstracts will be discussed within workshops that are moderated by key-experts in the specific theme.

#### Policy debate posters:

These posters describe significant developments in policy (whether governmental, organisational or any other) that affects primary care associated with the themes of the conference. In particularly national, regional or local policymakers are invited to provide new policy developments. Posters need clear statements for debate. All selected posters will be presented/defended in specific parallel sessions with a 15 minutes time-slot for each poster. These sessions are located in innovative settings, such as “debate corners”, animated by an expert facilitator.

#### Video presentations:

Projects and developments focusing on practice-oriented questions and reporting on recent experiences and innovations in primary care. These presentations should present case descriptions of primary care on the national, regional or local level. The selected videos will be displayed prominently with non-stop shows during the conference (length should be around 3 minutes and not exceeding the maximum of 5 minutes) and will be presented/defended in specific parallel sessions with a maximum of 15 minutes time-slot for each video.
